

## ASCIA ANNUAL CONFERENCE

ASCIA Annual Conferences continue to be the leading source of professional development in Australia and New Zealand for ASCIA members and other health professionals.

The ASCIA 2021 Conference was a highly successful virtual event, which was held from 1 to 3 September 2021.

The ASCIA 2022 Conference was a highly successful hybrid event, which was held in Melbourne (and online) from 30 August to 2 September 2022. Read more [here](#).

## ASCIA WEBSITE

The [ASCIA website](#) continues to provide new and updated world leading, accessible, consistent and evidence-based information about allergy and other immune diseases.

From 1 July 2021 to 30 June 2022 there were more than 3.2 million pageviews, 2.1 million visits and 1.7 million unique visitors to the ASCIA website.

## ASCIA COMMUNICATIONS

Monthly ASCIA e-newsletters have continued to keep more 730 ASCIA members and 5,100 community subscribers informed about allergy and clinical immunology updates.

## ADVOCACY AND COLLABORATIONS

[ASCIA lodged 15 submissions](#) from 1 July 2021 to 30 June 2022. ASCIA also advocates through [collaborations](#) with over 30 other groups.

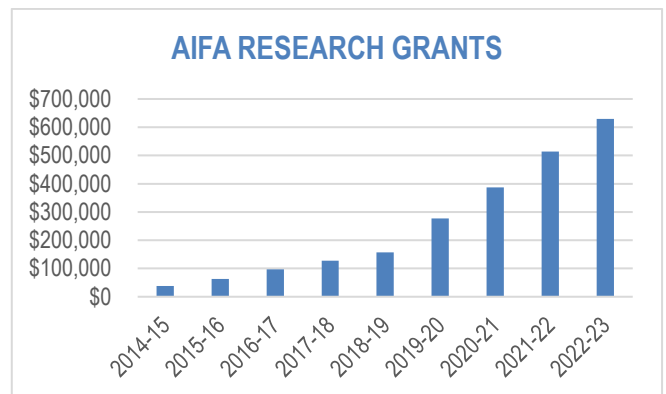

## ASCIA E-TRAINING COURSES

ASCIA has continued to provide [world leading online training](#), with more than 898,000 registrations since 2010.

## AIFA RESEARCH GRANTS

More than \$620,000 has been awarded in [AIFA research grants](#) since the program commenced in 2014.

## LAUNCHES

The [ASCIA Immunodeficiency Strategy for Australia and New Zealand](#) was launched on World Immunology Day, 29 April 2022, with a follow up event on World HAE Day, 16 May 2022. Media coverage was extensive for both events.

During the ASCIA 2022 Conference week the new [National Allergy Council \(NAC\)](#) and the [National Allergy Centre of Excellence](#) were also launched.

## PRIORITIES FOR 2022-2023

**ASCIA Member Services**, including website updates, communications, AIFA grants, sustainability and advocacy.

**ASCIA Professional Development**, including the [ASCIA 2023 Conference](#) and other meetings.

**ASCIA Collaborations**, including implementation of the ASCIA Immunodeficiency Strategy and NAC Shared Care project, as well as links with NACE, CFAR and other research, professional and patient groups.
