

In 2023 ASCIA is expanding its CPD opportunities for ASCIA members, by facilitating the following clinical case review groups for clinical immunology/allergy specialists and immunology/allergy advanced trainees:

- Paediatric Immunology and Allergy Interest Group (PIAIG)
- Adult Immunology and Allergy Interest Group (AIAIG)

The main objective of the ASCIA PIAIG and AIAIG meetings is to enable complex allergy and immunology cases to be peer reviewed and discussed in a confidential expert forum.

Further information is available on the ASCIA website [www.allergy.org.au/conferences/online-meetings](http://www.allergy.org.au/conferences/online-meetings)
